

176 ch 11/18/69
Your mailings of 11/10 and 11/14 received.... Good letter to Pena; I have ordered the rest of CD 1349 and will send you 2 copies. Note also CD 1539; at least one part relates to Pena, is by DeB. and Secret. The rest is also withheld. I have no idea who Mrs. Bessie Fleckenstein is. It is pretty clear the Liebeler had this CD on hand when he questioned Pena. I thought I convinced you long ago that informant numbers (T-1, etc.) are designated anew for each report - the main evidence being that the informants are always cited in numerical order - at least in all the reports I recall seeing. Why do you suggest that may not be the case?
